§ 930.95 Guidance provided by the State agency.

(a) State agencies should include within the management program a listing of specific types of Federal assistance programs subject to a consistency review. Such a listing, and any amendments, will require prior 306(c)(5) state agency (see § 930.18) consultation with affected Federal agencies and approval by the Assistant Administrator.

(b) In the event the State agency chooses to review applications for Federal assistance activities outside of the coastal zone but likely to affect the coastal zone, the State agency must develop a Federal assistance provision within the management program generally describing the geographic area (e.g. coastal floodplains) within which Federal assistance activities will be subject to review. This provision, and any refinements, will require prior 306(c)(5) State agency consultation with affected Federal agencies and approval by the Assistant Administrator.

(c) The State agency shall provide copies of any Federal assistance list or geographic provision, and any refinements, to Federal agencies, units of State or local government empowered to undertake Federally assisted activities within the coastal zone or described geographic area.

§ 930.96 Consistency review.

(a) If pursuant to the intergovernmental review process, the State agency does not object to the proposed activity, the Federal agency may grant the Federal assistance to the applicant agency. Notwithstanding State agency consistency approval for the proposed project, the Federal agency may deny assistance to the applicant agency. Federal agencies should not delay processing applications pending receipt of a State agency approval or objection. In the event a Federal agency determines that an application will not be approved, it shall immediately notify the applicant agency and the State agency.

(b) If pursuant to the intergovernmental review process, the State agency objects to the proposed project, the state agency shall notify the applicant agency, Federal agency and the Assistant Administrator of the objection.

(c) State agency objections must describe: (1) How the proposed project is inconsistent with specific elements of the management program, and (2) alternative measures (if they exist) which, if adopted by the applicant agency, would permit the proposed project to be conducted in a manner consistent with the management program.

(d) A State agency objection may be based upon a determination that the applicant agency has failed, following a written State agency request, to supply necessary information. If the State agency objects on the grounds of insufficient information, the objection must describe the nature of the information requested and the necessity of having such information to determine the consistency of the activity with the management program.

(e) State agency objections shall include a statement informing the applicant agency of a right of appeal to the Secretary on the grounds described in subpart H of this part.
